Los Angeles County ("County") completed an initial review for the above-mentioned project. Based on examination of the project proposal and the supporting information included, the County proposes that an Exemption is the appropriate environmental documentation under the California Environmental Quality Act (CEQA). The project qualifies as a Class 5 Categorical Exemption (Minor Alterations to Land Use Limitations) under State CEQA Guidelines Section 15305, and per Guidelines Section 15061(b)(3) because the project is administrative in nature and consists of technical amendments to existing standards. These amendments are intended to correct errors, and add additional clarifying language to existing standards and administrative procedures to make the ordinance easier to understand, use, and implement.
